

Wedding Flower Guide

We hope this “Wedding Flower Guide” will help you in planning the flowers you need for your special day – at the same time you can see some of our work.

Here are some questions to think about when planning your wedding flowers

- ✓ What is your budget for the flowers – what “must” you have, what is “nice” to have
- ✓ Have you a dream theme
- ✓ What flowers are important to you
- ✓ What style of bouquet would you like
- ✓ Who are the key people in your wedding party you would like to have flowers and what would you like them to have
- ✓ Would you like flowers for your hair or your bridesmaids/flowergirls
- ✓ What flowers do you need to decorate your venue
- ✓ Will you need flowers for your cake
- ✓ Would the Groom like to give Thank You flowers during his speech

Let’s look some of these in more detail.....

Do You Have a Dream Theme?

Something to match your personalities, something you love, something important or means something special to you both.

Could it be

Rustic

Typically more relaxed, natural and full of local, natural touches (like handmade wood tables and chairs in a barn venue), rustic weddings have been a number one choice for a few years now.

Vintage

Why not make your “something old” your wedding theme? Sprinkle antique touches and other heirloom details throughout for a timeless, vintage feel.

Classic Chic

More formal, elegant with minimal colours and flower types. Crystal glass, whites and foliage

Colour

Colours to match the bridesmaids or a neutral theme, or perhaps bright and vibrant
Or something else
